Chairman's Report

August 2015

Hi all

Well, this is my last Chairman's Report. After 3 years in the top job it's time to move aside and let someone else have a go. I have really enjoyed my time as chairman. It was fantastic to get to know all our members better. I wish the new committee all the best for the next year.

I would like to thank all my committee members for their support to make my job fun. We always had plenty of laughs along the way. I felt like everyone was very loyal to me and we were all pulling in the same direction. I would like to thank all our club members for being very active and supporting any of my initiatives and attending any club events whenever possible. When I first took on the role, I had several goals. I wanted to increase membership participation rates for weigh-in weekend, in ANSA events such as the All Species Challenge, involvement in Gamefishing competitions, and I think we have done that. Also I am particularly proud of the members that have shared their knowledge with others.

I would also like to thank the MBBC staff for their efforts and Greg Hamilton and Rochelle for their assistance in helping me. I would also like to mention Paul Corn for representing our club at Board level.

The Trophy Presentation night turned out to be a great night of fun, dancing, drinking and laughing. Congratulations to all the trophy winners. Many of the trophies were decided by only a few points and some were even decided on count-back. I apologise to everyone again on the trophy fire debacle. After then initial disappointment of many of the trophies not being ready, it turned out to be a funny story that you can all rib me about for the next few years. I'm sure I haven't heard the end of that yet. The trophy list will be in the Tackle Box somewhere. I have to salute Ross Drysdale for receiving the "Toilet Seat Award". He was going to be hard to beat with about six nominations. All I can say is well done Ross!

Be aware that we have an All Ports weekend for the gamefishos to consider between now and Christmas and we also have the Redcliffe All Tackle Tournament in November.

Anyway I can sit up the back in the crowd now and heckle the new committee, payback...!

Thanks again everyone

See you on the water.

Cheers Mick King

10 GRICE ST CLONTARF 4019

10% discount to all members
 or
Free wheel alignment with any service

To win the money for the monthly nominated fish inshore or offshore species, simply weigh in the heaviest **Pearl Perch** or **Cod**. All fish weighed, regardless of whether they are in for the 'fish of the month' must be labelled with the angler's name and line class. To receive double club points, fish must be tagged or caught on the Club Weekend only and the cards correctly completed and handed in or fish weighed in at M.B.B.C. from 3.30pm to 4.30pm on the Sunday. Prizes for the heaviest 'fish of the month' will be awarded at the following club night.

Remember, club fishing weekend starts on midnight on Friday **14th August** finishing on **Sunday 16th August** at 3.30-4.30pm and the species are **Pearl Perch** and **Cod**.

Tailor	-	
Trevally	-	
Tuna	-	
Wahoo	-	
Whiting	-	

For fun and fishing interest we have been tracking the biggest of the species caught and most Billfish tagged in the 2014/15 fishing year. Not worried about line class or what tackle used.

Just email me at noelday@optusnet.com.au and I will keep updating the list and we'll see who catches the biggest.

So stop mowing the grass or fixing the fence and get fishing - still plenty of time to get your name in print!

Brad Clayton with a nice flame tailed snapper.

Robbie with a 'mother-in-law fish'.

Net free zones will protect precious marine life

WWF-Australia Media Statement - Monday 10 August 2015

WWF-Australia today gave full support to Queensland's three new net-free fishing zones [proposed](#) for near Cairns, north of Mackay and on the Capricorn Coast.

"Removing nets from these three areas will help protect turtles, dugong and dolphins including rare snubfin dolphins," said WWF-Australia spokesperson Darren Grover.

"We know that nets can kill air-breathing marine creatures who suffer a terrible death held underwater until they drown.

"Sadly, in recent years Queensland authorities have occasionally found dead dugongs and snubfin dolphins, killed in nets, then weighed down with concrete to avoid detection.

"With no mandatory independent observer program for fishing we believe there may be many more animals being killed," he said.

In Queensland dugongs are listed as vulnerable to extinction and the Great Barrier Reef Marine Park Authority website [says](#): "Current combined levels of mortality from all threats ...are thought to be unsustainable". The International Union for Conservation of Nature lists gill netting as a major threat to dugongs.

The Great Barrier Reef is home to globally significant marine turtle populations but the six species living on the Reef are all listed as either vulnerable or endangered.

GBRMPA's website [states](#) that snubfins are vulnerable to decline and Mr Grover said that researchers in the Fitzroy Delta report many of the resident snubfin population have marks from fishing nets.

"There are fewer than one hundred of these gentle creatures in the area and they are a genetically distinct population. The loss of just a few individuals a year could push this small population to the brink," he said.

The Reef 2050 Plan, hailed as one of the main reasons Australia avoided an 'in danger' listing for the Great Barrier Reef, includes a commitment to "further protect the Fitzroy Delta ... through ... establishment of a new net-free zone under fisheries legislation".

"We can't just pick and choose which parts of Reef 2050 are put into action. Australia must follow through on all commitments, including a net-free zone, to avoid an 'in danger' listing in the future," Mr Grover said.
