Chairman's Report

Hi all,

Overall been a quite month with only a few of us socially fishing and others attending other tournaments in game fishing. Last night we talked about our recent tournament and were pleased with our financial results and hoping for an even better roll up next year. Coming up this year first is our Sportfish tournament where all can fish whether it be: beach, lake, dam or ocean.

Our last BBQ only saw a few of us there with the threatening weather but I hope to see more of you there next time for our Sausage sizzle, ale and fishing stories. We are in the early stages of inviting more guests in the coming months talk about their fishing products and more.

Until next time,
Maddy

Club Captain's Report

G'day all,
It's been a quiet month for everyone, after a big January that ended with a very successful Australia Day tournament for the club. Also weather has stopped a few. It was a very small club weekend bbq with no fish weighed in so there is a good bounty on both the inshore and offshore fish next club weekend. We have set the dates for the Sportfishing comp for November 12th to the 14th, so book this in. The Ipswich club is hosting the ANSA Sth QLD Interclub Challenge, May 21st to 23rd at Somerset Dam. It would be good to get a big turn out from RPGSC to this event as it is a club based trophy based on points. To find out more go to the ANSA site and check out events. For the Game fishing guys the Back to Tangas is on in March.

To receive double club points, fish must be tagged or caught on the Club Weekend only and Capture sheets correctly completed and handed in or fish weighed in at M.B.B.C. from 3.30pm to 4.30pm on the Sunday. Prizes for the heaviest 'fish of the month' will be awarded on the day so you must be there.

Remember, club fishing weekend starts on midnight on

Friday and finishing on **Sunday** at 3.30pm.

Rare Long-Term Yellowfin Tuna Recapture
From time to time, DPI's Game Fish Tagging Program is lucky enough to receive details of recaptures that come from remote regions of the Pacific Ocean.

Recently, a game fish recapture form was submitted by a researcher from the Japanese Fisheries Research Institute. The fisheries researcher had received a tag from a skipper of an international longline vessel who had just returned from a long-distance fishing voyage throughout the Pacific Islands.

During this trip, the longline vessel captured a mature tagged yellowfin tuna while fishing an area known as the Pocklington Trough, which is east of Rossel Island, PNG.

A quick search of the database found that the tuna was tagged at the Southern Canyons offshore of Port Hacking, NSW. The fish was originally caught on 17 July 2016 by Gina Cleaver, who was fishing aboard her brother Chris's boat Double Edge.

The juvenile tuna was estimated it to be only 5kg when it was tagged.

Upon recapture, it weighed in at 61kg, highlighting the typically impressive growth rate of this species.

The fish spent 1649 days at liberty and was caught more than 1330 nautical miles (~2460km) from its original release location.

The Game Fish Tagging Program is a great example of your fishing fees at work!

For fun and fishing interest we are tracking the biggest of the species caught and most Billfish tagged in the 2020-2021 fishing year. Not worried about line class or what tackle used. Just email me at noelday@optusnet.com.au and I will keep up dating the list and we'll see who catches the biggest. So stop mowing the grass or fixing the fence and get fishing...
